NOT ALL WARM ROOFS ARE THE SAME

With an all GRP construction, our Classic roof is both Ultra Lightweight and Ultra Energy Efficient with a u-value of just 0.15. Better than your average house roof!

The Classic roof is designed to replace your existing glass/polycarbonate conservatory roof, without the necessity to replace your existing frames.

It is available in a range of lightweight tile options and colours and meets all current building regulations.

Showroom Open: Mon-Fri 9am-4.30pm

We offer the Complete service. From Planning to Plastering. We can replace your old, tired conservatory or a complete new build.

Whether you fancy a Lean to style, Victorian, Edwardian or a grand Orangery, our trained Representatives and up to date Computer Aided Design software (CAD) we will help you choose a Conservatory that best suits your home.

We use the Industry leading Ultraframe roof; Classic are proud to be the local Ultraframe approved Installer.

NOT ALL DOUBLE GLAZING IS THE SAME

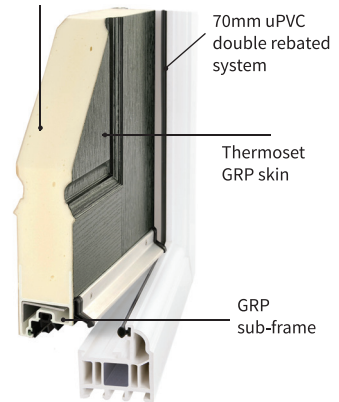

With energy prices again on the rise, now is the time to fit the most energy efficient windows and doors available on today's market. Our windows are British made, thermally efficient and cost effective. With an A+14 energy rating as standard. Casement windows, Flush Sash, Tilt and Turn, Sash horn and vertical sliding windows, all available in a wide range of colours.

NOT ALL COMPOSITE DOORS ARE THE SAME

Our Composite doors are British made, energy saving A rated doors. Unlike nearly every composite door on the market, they contain no wood, purely GRP and a high-density polyurethane core. Available in 70mm thickness, double seal, double security. Can also be triple glazed. Colour options are unlimited!

70mm rigid polyurethane injected core
